National conservation areas are not the places for this type of industrial development,” said Phil Hanceford, conservation director at The Wilderness Society. “These lands were protected to ensure conservation and recreation opportunities into the future. We will take action to stop this last-ditch effort by the Trump administration as they are on their way out the door.”

The province also claims 23 per cent of B.C. forest – about 13 million hectares – qualifies as old-growth. But a study published in June found just three per cent of B.C. is capable of supporting large trees and within that small portion of the province, the report's authors found only 2.7 per cent of the trees are actually old. The authors note, "old forests on these sites have ...
