Altintas, Can, and Patton (2007) introduce a systematic approach to language change quantification by studying unconsciously-used language features in time-separated parallel translations. For this purpose, they use objective style markers such as vocabulary richness and lengths of words, word stems and suffixes, and employ statistical methods to measure their changes over time.

But for our poetic purposes, we're going to stick with on. ... It's like iambic pentameter in English; the language naturally falls into this pattern, so verse was based on it for centuries before haiku existed. However, as I said earlier, this rule is often broken (in English and Japanese). Here's an example from one of Bash?'s most famous haiku: ??????????????. On a ...

The American Revolution, inspired by the ideas of the Enlightenment, in turn served as an inspiration for the European bourgeois revolutions. These were revolutionary wars against the domination of feudalism and its derivatives, the most classical example being the Great French Revolution that began in 1789. But the ripple effect of the American Revolution went much further, influencing and ...

The essentialist language is pervasive in Négritude literature, no doubt, but so is the language of hybridity which can be seen as undermining it the way Penelope used to undo at night what she had woven during the day. Senghor is as much a thinker of "métissage" (mixture) than he is a thinker of Négritude. His watchword, "everyone must be mixed in their own way" is as central to ...
